About Seeing Machines

Seeing Machines, (AIM: SEE) is focused on operator monitoring and intervention sensing technologies and services. With more than 15 years of experience, Seeing Machines uses advanced detection and prevention safety assistance technologies to track eye and facial movement in order to monitor fatigue, drowsiness and distraction events, such as microsleeps, texting and cell phone use as they occur, while providing for a real-time intervention strategy, which improves operator, driver and environmental safety, preserves assets, and reduces risk. Seeing Machines' technology is used worldwide across the automotive, mining, transport and aviation industries; as well as many of the leading academic research groups and transportation authorities. Seeing Machines is headquartered in Australia and has offices in Tucson, Arizona and Mountain View, California. The Company counts Caterpillar, Electro Motive Diesel, Progress Rail, Boeing, Takata, SEMCo, and Eye Tracking Inc among its partners.
